\$4 prescriptions include up to a 30-day supply of covered drugs at commonly prescribed dosages. \$10 prescriptions include up to a 90-day supply of covered drugs at commonly prescribed dosages. Physician permission may be required to change a 30-day prescription to a 90-day prescription.

*These drugs may be priced higher in CA, HI, MN, MT, PA, RI, TN, WI, and WY. Please ask your Target Pharmacist for specific pricing in these states.

Retail Prescription Program Drug List

Low-cost prescriptions make a difference

At Walmart, we don't think you should have to choose between groceries and the medicines you need. Our \$4 prescriptions save American families hundreds of millions of dollars a year.

More \$4 prescriptions than ever

Now our \$4 price covers hundreds of prescriptions. That includes medicines for a wide range of conditions and diagnosis groups. This list is a quick-reference tool that will help you find the specific medicines you're looking for.

90-Day Prescriptions

Taking a regular prescription? Ask your doctor if you can refill it 3 months at a time. At only \$10, our 90-Day prescriptions save you even more than our regular low-cost prescriptions. You save trips to the pharmacy, too.

Not part of Prescription Program or subject to Walmart's Prescription Program Details. Available at all Walmart, Sam's Club and Neighborhood Markets pharmacies in the United States, except in North Dakota. These drugs are offered at the price specified only in the exact unit sizes and formulations specified above and are not subject to proration. You may pay more or less depending on the terms of your health plan. Specified price may be limited to select manufacturers of the drugs and is available as long as supplies are in stock at the pharmacy. There are no substitutions or mail orders. See your Walmart Pharmacist for details.

- Walmart's Prescription Program Details**
1. Walmart's Prescription Program (the "Program") is available at all Walmart, Sam's Club and Neighborhood Market pharmacies in the United States ("Walmart Retail Pharmacies"), except in North Dakota, as set forth below in Sections 3 and 4. The Program is also available through Walmart Mail Service ("Walmart Mail Service"), as set forth below in Section 5.
 2. The Program applies only to certain generic drugs at commonly prescribed dosages. Higher dosages cost more. You may obtain a list of generic drugs and dosages covered under the Program at Walmart Retail Pharmacies (the "Retail Drug List") and through Walmart Mail Service (the "Mail Service Drug List") on Walmart.com or at Walmart Retail Pharmacies. The Retail Drug List and Mail Service Drug List may change and also may vary by state. Not all formulations of a drug (for example, enteric-coated, extended or timed release formulations) are covered under the Program. Program pricing not available when a covered drug is dispensed as part of a compound.
 3. Under the Program at Walmart Retail Pharmacies, \$4 is the price for up to a 30-day supply of certain covered generic drugs at commonly prescribed dosages (the "\$4 Retail Program"). \$10 is the price of a 90-day supply of certain covered generic drugs at commonly prescribed dosages (the "\$10 Retail Program"). Not all drugs covered by the \$4 Retail Program are covered by the \$10 Program. Prices for quantities between a 30-day supply and a 90-day supply of drugs covered by both the \$4 Retail Program and \$10 Retail Program are prorated based on the \$4 Program price, but will not exceed \$10. Prices for quantities greater than a 90-day supply of drugs covered by the \$10 Retail Program are prorated based on the \$10 Program price. Prorated pricing is not available under the Program for prepackaged drugs. For pricing policies relating to prepackaged drugs (such as tubes, vials or bottles), see Section 6.
 4. Under the Program at Walmart Retail Pharmacies, \$9 is the price for up to a 30-day supply of certain women's health and other covered generic drugs at commonly prescribed dosages (the "\$9 Retail Program"). \$24 is the price for a 90-day supply of certain women's health and other covered generic drugs at commonly prescribed dosages (the "\$24 Retail Program"). Not all drugs covered by the \$9 Retail Program are covered by the \$24 Retail Program. Prices for quantities between a 30-day supply and a 90-day supply of drugs covered by both the \$9 Program and \$24 Retail Program are prorated based on the \$9 Program price, but will not exceed \$24. Prices for quantities greater than a 90-day supply of drugs covered by the \$24 Retail Program are prorated based on the \$24 Program price. Prorated pricing is not available under the Program for prepackaged drugs. For pricing policies relating to prepackaged drugs, see Section 6.
 5. Under the Program through Walmart Mail Service, \$10 is the price for mail delivery of a 90-day supply of certain generic drugs at commonly prescribed dosages ("\$10 Mail Service Program"). \$24 is the price for mail delivery of certain women's health and certain other covered drugs at commonly prescribed dosages ("\$24 Mail Service Program"). Not all drugs covered by the \$10 Retail Program are covered by the \$10 Mail Service Program; not all drugs covered by the \$24 Retail Program are covered by the \$24 Mail Service Program. See Mail Service Drug List for a list of drugs covered by the \$10 Mail Service Program and \$24 Mail Service Program. Walmart Mail Service covers both initial fills and refills. Delivery of covered drugs is available only through Walmart Mail Service and is not available at Walmart, Sam's Club, and Neighborhood Market retail pharmacies. Delivery under the Program through Walmart Mail Service is limited to U.S. addresses by First-Class Mail; expedited delivery is also available for an additional charge. Some health plans do not cover Walmart Mail Service or 90-day supplies. Prices for quantities greater than a 90-day supply of drugs covered by the \$10 Mail Service Program and the \$24 Mail Service Program are prorated based on the \$10 and \$24 Program price, respectively. Prices for quantities less than a 90-day supply are not prorated under either the \$10 Mail Service Program or the \$24 Mail Service Program. Prorated pricing is not available under the Program for prepackaged drugs. For pricing policies relating to prepackaged drugs, see Section 6.
 6. Prepackaged drugs are covered under the Program only in the unit sizes specified on the Retail Drug List and Mail Service Drug List. Prepackaged drugs are dispensed based on the quantities prescribed and unit sizes in stock at the dispensing pharmacy. Unit sizes not specified on the Retail Drug List or Mail Service Drug List are not covered under the Program. Multi-unit purchases are charged at a per unit price, based on the price per unit size dispensed, unless otherwise specified. Prepackaged drugs dispensed in unit sizes not specified on the Retail Drug List and Mail Service Drug List may be priced higher, even if equivalent quantities of the drug are available in specified unit sizes. Prorated pricing is not available under the Program for prepackaged drugs.
 7. Prices of certain drugs covered by the Program may be higher in some states, as noted on the Retail Drug List and Mail Service Drug List.
 8. Program pricing may be limited to select manufacturers of a covered drug and is available as long as supplies from such manufacturers are in stock at the dispensing pharmacy.
 9. You may pay less or more than the Program price, depending on the terms of your health plan. Prescriber permission may be required to change a 30-day prescription to a 90-day prescription. Certain plans, including government-funded programs, may not cover a 90-day supply.
 10. For purchases made at Walmart Retail Pharmacies, prescriptions must initially be filled in person, and refills must be picked up in store. There are no substitutions. Purchases made through Walmart Mail Service may be ordered at Walmart Retail Pharmacies, by phone or through walmart.com.
 11. These Program Details are subject to change without advance notice. Changes to these Program Details may be made only in writing.

..... Prescription Program includes up to a 30-day supply for \$4 and a 90-day supply for \$10 of some covered generic drugs at commonly prescribed dosages. Higher dosages cost more. Prices for some drugs covered by the Prescription Program may be higher and may vary in some states. Restrictions apply. See Program Details or your Walmart Pharmacist for details. Free language assistance services available for prescription drug information at Walmart and Sam's Club pharmacies in New York. Contact your Walmart or Sam's Club pharmacy for details.

*Prices may be higher in CA, HI, MN, MT, PA, TN and WI.
†Prepackaged drugs are covered only in unit sizes specified on Drug List. See Program Details or your Walmart Pharmacist for details.

Revised 10/22/09

Generic Drugs

Your neighborhood Publix Pharmacy provides many varieties of brand-name and generic drugs. In general, generic drugs can mean a 30-60% savings, compared to their brand-name equivalent. These drugs must also meet stringent Food and Drug Administration (FDA) regulations, by containing the identical active ingredients and producing the same effect on the body. Generic drugs must be bioequivalent and have equal strength, quality, purity and potency as their brand-name counterparts. Check with your Publix pharmacist to see if a generic option is available and appropriate for your health needs.

As of October 1, 2009, the following generic drugs **are now available** at your local Publix Pharmacy. Please speak with your Publix pharmacist for complete details about these drugs and their use:

- **Benzoyl Peroxide/Clindamycin 1-5% gel:** A generic equivalent for Benzaclin gel.

New drugs are becoming available all of the time. These generic drugs **are expected to be available soon** at your neighborhood Publix Pharmacy. Please ask your Publix pharmacist or check with your doctor for more information regarding these drugs and their use:

- **Valacyclovir 250, 500mg tablets:** A generic equivalent for Valtrex tablets.
- **Buprenorphine 2, 8mg tablets:** A generic equivalent for Subutex tablets.
- **Lansoprazole 15, 30mg capsules:** A generic equivalent for Prevacid capsules.
- **Brimonidine 0.15% eye drops:** A generic equivalent for Alphagan P eye drops.

Generic drugs can offer many benefits, including:

- commonly having a lower price than brand-name drugs.
- generally requiring a lower co-pay than their brand-name counterparts.
- containing the same active ingredients with the same effects as the brand-name equivalent.

Your Publix pharmacist understands that health and happiness go hand-in-hand and wants to help you and your family by being a vital part of your healthcare team.

Publix Pharmacy

Good news.

Select oral antibiotics are free.

At Publix, we're always looking for ways to make your life easier. And helping you manage healthcare costs is no exception. That's why we're pleased to tell you that some commonly prescribed generic oral antibiotics are free at your neighborhood Publix Pharmacy. To take advantage of this great deal, all you have to do is bring in your prescription for any of the medications below, and we'll give you up to a 14-day supply at no cost to you—regardless of your prescription insurance provider or the number of prescriptions you need filled.

The Kmart Generic Savings Prescription Program covers up to the quantity specified for each eligible drug. Most quantities are based on a course of therapy at commonly prescribed dosages. Prices for greater than the specified quantity are prorated based on the price listed for each drug. Enrollment in the Kmart 90 Day Generics Program is required to receive the Prescription Program price. Only eligible drugs will be covered. List may change and vary by state at any given time. Kmart reserves the right to modify or discontinue this program or modify the terms and conditions of this program at any time without notice.
